

Morning **Sickness**

Many women suffer this misery. It makes its appearance so regularly that they learn to expect it and arrange their household work accordingly. Few women think of seeking medical help to get rid of it for good. If women only knew of the power and effectiveness of Dr. Simmons Squaw Vine Wine they would not be without it a moment longer than it would take to get it from the drug store. It is a splendid remedy for all nausea or sickness of the stomach. The first dose settles the stomach and makes the patient feel better. Additional doses act on the female generative system, strengthening weakened organs, regulating the habits, restoring tone and strength in every part of the body. It is essentially a woman's remedy prepared expressly to meet the need of women who suffer from the ailments common to their sex.

Additional Locale.

Elaborate and enthusastic preparations are being made by the ladies of the Methodist church for the Old Fiddlers' Contest which will begin at 2:00 o'clock, Thursday, August 24, and which will be continued at 8:00 fn the evening, by a performance by the winners of the matinee contest. Not only are the preparations being made for the entertainment of the audience but also for providing dinner, etc.. for the "old fiddlers" who have entered the contest. The list is still open and in the hands of C. C. Williams who will enroll contestants.

Don't miss the Old-Time Fiddler's Contest to be held at the Court House August 24, 2:00 p. m. Admission 25c and 35c. Benefit pipe ogan fund new M. E. Church. The following fiddlers will take part: J. A. Winfrey Sr. Somerville; S. N. Duncan, Whiteville; Ed Sanders, Grand Junction; Charley Byrd, Mason; W.M. Goodman, Vildo; J. S. Riggs, Oakland; J. R. Johnson, Moscow; J. L. Fraser, Somerville; Wash Morris, Dancyville; H. M. Smalley, Somerville; Jno. R. Burns, Vildo; Jno. German; Oakland; J. A. Douglass, Oakland; Ben Pleasants, Rossville, Perry Sammons, Whiteville, and Julius Harvey, Macon.

The appointment of Dr. John W. Morris as a member of the Federal Medical Reserve Corps which was announced last week does not remove him at once from his practice in this vicinity, as was erroneously supposed by some upon learning of the appointment. In fact, Dr. Morris does not anticipate a call to assume his new duties at any time in the near future. The appointment is for the present honorary in its emvoluments, but places the appointee subject to call for service in the U. S. army, and carries with it the rank of Lieutenant. It is a noticeable fact that out of a large class of physicians who took the examinations last July at Nashville, only two appointments resulted. Dr. Morris being one of the

Extensive repairs which have been under way for several weeks in Lipsky er than any concern doing business in presents a most inviting appearance. Fresh wall paper and newly painted wood work with tasteful draperies in harmonizing colors are being added, fitting rooms, alteration departments, ladies' toilet rooms with all modern convenience have been nearly completed and the whole is being rapidly made ready for the record breaking business which the firm is evidently looking for.

Make Your Own Healing Remedy at Home

Buy a bottle of Farris Healing Remedy, add to it a pint of Linseed Oil to make an ointment. You will then have sixteen ounces of the Healing Remedy for harness and saddle galls, barbed wire cuts, scratches, or any hurt or sore where the skin is baoken. Positively guaranteed the best made, Make it at home. By so doing you have \$2 00 worth for 50c. Sold by W. S. Shinault.

CONCRETE SILO

(By D. T. Hardin, Division of Extension, University of Tennessee.)

The cost figures on any man's silo are of interest and value to any other man, even though they may not tell exactly what the second man will have to pay for the silo he builds.

In planning for pure-bred Aberdeen Angus cattle, Mr. C. M. Rose, of Rosne county built this silo.

Many farmers are putting up concrete silos. C. M. Rose, of Roane county, after building his silo, gives the following cost figures, which do not include team work, old lumber, scaffolds, nor rock crusher, which Mr. Rose owned. The silo is 12x48, making its capacity 150 tons.

Labor preparing stone...... Labor for crushing stone..... Band 15.00 Reinforcing 40.00 Cement-52 sacks Cost of form and superintendent 99.00

BIG PRICES FOR COCKERELS.

VALUE OF HERD RECORDS

(By H. C. Stockwell, Division of Extension, University of Tennessee.) It has been demonstrated through

teeting associations, by individual records, and by the breed associations, that a systematic system of milk and butterfat records, and also a record of the feed consumed by each individual cow, is the only method of running a dairy on a business and profitable basia. It is impossible to breed up a herd of profitable cows without this system of checking each cow's performance by what she actually does at the pail.

When starting to keep herd records, Excavating foundation 3 3.00 a record sheet should be procured and placed on the wall of the barn in the most handy place. Then a pair of seales should be purchased and hung Eight days' labor six men 48.00 to one side of the record sheet. After milking each cow, the milk should be weighed and the weight recorded on the record sheet for future use.

At the end of each month a sample of each cow's milk should be taken Total cost\$320.76 and tested for butterfat, and from these records the total amount of milk and butterfat can be calculated.

The record is not complete unless the amount and cost of feed, which each cow consumes, is known. The feed should be weighed or measured. I have learned from experience that and, if the latter method is used, the
